INDEX TO VOLUME 93

Abrahams, A. D., A. J. Parsons, and P. J. Hirsch. *Hillslope gradient-particle size relations: evidence for the formation of debris slopes by hydraulic processes in the Mohave Desert*, 347

The Acadian thermal history of the Merrimack Synclinorium in New Hampshire [C. P. Chamberlain and P. C. England], 593

Accretion Tectonics in the Circum-Pacific Regions, edited by M. Hashimoto and S. Uyeda. *Review* by D. E. Karig, 96

Ach, J. *See* DeLong, S. E.

Adams, A. E., W. S. MacKenzie, and C. Guilford, authors of Atlas of Sedimentary Rocks under the Microscope. *Review* by B. W. Fouke, 514

Age relationships in the Abitibi greenstone belt: evidence from ion-microprobe-determined lead isotope ratios [T. B. Vander Wood and R. N. Clayton], 251

Allegre, C. J. *See* Xu, R.-H.

Aller, R. C. *See* Krumbein, W. E. *See also* Parker, A.

Anderson, E. J. *See* Goodwin, P. W.

Are strongly peraluminous magmas derived from pelitic sedimentary sources? [C. F. Miller], 673

Asthenospheric source of Ugandan ultrapotassic magma? [R. N. Thompson], 603

Atlas of Sedimentary Rocks under the Microscope, by A. E. Adams, W. S. MacKenzie, and C. Guilford. *Review* by B. W. Fouke, 514

Aureole deformation by flattening around a diapir during in situ ballooning: the Cannibal Creek Granite [R. Bateman], 293

Banerjee, S. K. *See* O'Reilly, W.

Basement and sedimentary recycling—2: time dimension to global tectonics [J. Veizer and S. L. Jansen], 625

Bateman, R. *Aureole deformation by flattening around a diapir during in situ ballooning: the Cannibal Creek Granite*, 293

Bateman, R. *Progressive crystallization of a granitoid diapir and its relationship to stages of emplacement*, 647

Becker, D. G., and M. Cloos. *Melange diapirs into the Cambria slab: a Franciscan trench slope basin near Cambria, California*, 101

Benard, F., P. Moutou, and M. Pichavant. *Phase relations of tourmaline leucogranites and the significance of tourmaline in silicic magmas*, 271

Berggren, W. A., and J. A. Van Couvering, editors of Catastrophes and Earth History. *Review* by D. M. Raup, 221

Bhatia, M. R. *Plate tectonics and geochemical composition of sandstones: a reply*, 85

Bickford, M. E. *See* Shuster, R. D.

A bimodal Archean volcanic series, Owl Creek Mountains, Wyoming [P. A. Mueller, Z. E. Peterman, and J. W. Granath], 701

Biotic Interactions in Recent and Fossil Benthic Communities, edited by M. J. S. Tevesz and P. L. McCall. *Review* by M. LaBarbera, 749

Bird, J. M. *See* Goodrich, C. A.

Bishop, P., R. W. Young, and I. McDougall. *Stream profile change and longterm landscape evolution: Early Miocene and modern river systems of the east Australian highland crest, central New South Wales, Australia*, 355

Bloom, A. L. *See* Taylor, F. W.

Brink, K. H. *See* Gade, H. G.

Bubble migration and coalescence during the solidification of basaltic lava flows [D. Sahagian], 205

Burchfield, J. D. *See* Hallam, A.

Burke, K. *See* Taylor, F. W.

Butler, R. F., and E. H. Lindsay. *Mineralogy of magnetic minerals and revised magnetic polarity stratigraphy of continental sediments, San Juan Basin, New Mexico*, 535

Campbell, K. E., Jr. *See* MacFadden, B. J.

Carter, R. M. *The mid-Oligocene Marshall Paraconformity, New Zealand: coincidence with global eustatic sea-level fall or rise?*, 559

Catastrophes and Earth History, edited by W. A. Berggren and J. A. Van Couvering. *Review* by D. M. Raup, 221

Cerveny, P. F. *See* Johnson, N. M.

Chadronian (early Oligocene) magnetostratigraphy of eastern Wyoming: implications for the age of the Eocene-Oligocene boundary [D. R. Prothero], 555

Chamberlain, C. P., and P. C. England. *The Acadian thermal history of the Merrimack Synclinorium in New Hampshire*, 593

Chayes, F. *Complementary ternaries as a means of characterizing silica saturation in rocks of basaltic composition*, 743

Chemical and isotopic evidence for petrogenesis of the northeastern Idaho batholith [R. D. Shuster and M. E. Bickford], 727

Cherts of the Barberton greenstone belt interpreted as products of submarine exhalative activity [I. Paris, I. G. Stanistreet, and M. J. Hughes], 111

Cifelli, R. L. *See* MacFadden, B. J.

Cisne, J. L. *Depth-dependent sedimentation and the flexural edge effect in epeiric seas: measuring water depth relative to the lithosphere's flexural wavelength*, 567

Clayton, R. N. *See* Vander Wood, T. B.

Cloos, M. *See* Becker, D. G.

Coastal Oceanography, edited by H. G. Gade, A. Edwards, and H. Svendsen. *Review* by K. H. Brink, 221

Collinson, J. D., and J. Lewin, editors of Modern and Ancient Fluvial Systems. *Review* by S. A. Schumm, 623

Complementary ternaries as a means of characterizing silica saturation in rocks of basaltic composition [F. Chayes], 743

Conca, J. L., and G. R. Rossman. *Core softening in cavernously weathered tonalite*, 59

A constitutive equation for mass-movement behavior [R. M. Iverson], 143

The control of depositional depth, tectonic uplift, and volcanism on sedimentation processes in the back-arc basins of the western Pacific Ocean [G. deV. Klein] 1

Core softening in cavernously weathered tonalite [J. L. Conca and G. R. Rossman], 59

Crowley, K. D. *See* Harper, C. W., Jr.

Cuènod, Y. *See* Mégard, F.

Dallmeyer, R. D., and J. Hibbard. *Geochronology of the Baie Verte Peninsula, Newfoundland: implications for the tectonic evolution of the Humber and Dunnage zones of the Appalachian Orogen: a reply*, 511

The Dawn of Animal Life: A Biohistorical Study, by M. F. Glaessner. *Review* by M. LaBarbera, 749

DeLong, S. E., M. R. Perfit, M. T. McCulloch, and J. Ach. *Magmatic evolution of Semisopochnoi Island, Alaska: trace-element and isotopic constraints*, 609

Depth-dependent sedimentation and the flexural edge effect in epeiric seas: measuring water depth relative to the lithosphere's flexural wavelength [J. L. Cisne], 567

Dicks, S. E. *See* Pirkle, F. L.

Dissolution of mafic minerals and its implications for the ascent velocities of peridotite-bearing basaltic magmas [L.-C. Kuo and R. J. Kirkpatrick], 691

Domack, E. W., and D. E. Lawson. *Pebble fabric in an ice-rafted diamicton*, 577

Drake, L. *See* Evenson, E.

Druitt, T. M. *Vent evolution and lag breccia formation during the Cape Riva eruption of Santorini, Greece*, 439

Duke, W. A. *The paleogeography of Paleozoic and Mesozoic storm depositional systems: a discussion*, 88

An early Cretaceous volcanic sequence in central Israel and its significance to the absolute date of the base of the Cretaceous [B. Lang and Y. Mimran], 179

Earth's Earliest Biosphere, edited by J. W. Schopf. *Review* by B. Gregor, 95

Edwards, A. *See* Gade, H. G.

Edwards, L. E. *Insights on why graphic correlation (Shaw's Method) works: a reply*, 507

Emperor fracture zone morphology by multi-beam sonar [N. C. Smoot and A. Lowrie], 196

England, P. C. *See* Chamberlain, C. P.

Evaluation through correlation and principal component analyses of a delta origin for the Hawthorne and Citronelle sediments of Peninsular Florida [F. L. Pirkle, E. C. Pirkle, W. A. Pirkle, and S. E. Dicks], 493

Evenson, E., Ch. Schuluchter, and J. Rabassa, editors of Tills and Related Deposits: Genesis/Petrology/Application/Stratigraphy. *Review* by L. Drake, 97

Evidence for primary kimberlitic liquids in megacrysts from kimberlites in Kentucky, U.S.A. [D. J. Schulze], 75

Fisher, R. V., and H.-U. Schmincke, authors of Pyroclastic Rocks. *Review* by S. Williams, 513

Formation of iron-carbon alloys in basaltic magma at Uivfaq, Disko Island: the role of carbon in mafic magmas [C. A. Goodrich and J. M. Bird], 475

Fouke, B. W. *See* Adams, A. E.

Gade, H. G., A. Edwards, and H. Svendsen, editors of Coastal Oceanography. *Review* by K. H. Brink, 221

Gaspar, J. C. *See* Roden, M. R.

Genesis of an imbricate push moraine, Höfdabrekkujökull, Iceland [O. Humlum], 185

Geochronology of the Baie Verte Peninsula, Newfoundland: implications for the tectonic evolution of the Humber and Dunnage zones of the Appalachian Orogen: a discussion [R. Parrish and O. Van Breemen], 510

Geochronology of the Baie Verte Peninsula, Newfoundland: implications for the tectonic evolution of the Humber and Dunnage zones of the Appalachian Orogen: a reply [R. D. Dallmeyer and J. Hibbard], 511

Glaessner, M. F., author of The Dawn of Animal Life: A Biohistorical Study. *Review* by M. LaBarbera, 749

Goldsmith, J. R. *See* Jenkins, D. M.

Goodrich, C. A., and J. M. Bird. *Formation of iron-carbon alloys in basaltic magma at Uivfaq, Disko Island: the role of carbon in mafic magmas*, 475

Goodwin, P. W., and E. J. Anderson. *Punctuated aggradational cycles: a general hypothesis of episodic stratigraphic accumulation*, 515

Granath, J. W. *See* Mueller, P. A.
Great Geological Controversies, by A. Hallam. *Review* by J. D. Burchfield, 749
Gregor, B. *See* Schopf, J. W.
Groundwater as a Geomorphic Agent, by R. G. LaFleur. *Review* by S. A. Schumm, 222
Guilford, C. *See* Adams, A. E.
Hallam, A., author of Great Geological Controversies. *Review* by J. D. Burchfield, 749
Harper, C. W., Jr., and K. D. Crowley. *Insights on why graphic correlation (Shaw's Method) works: a discussion*, 503
Harper, G. D. *See* Pinto-Auso, M.
Hashimoto, M., and S. Uyeda, editors of Accretion Tectonics in the Circum-Pacific Regions. *Review* by D. E. Karig, 96
Hibbard, J. *See* Dallmeyer, R. D.
Hillslope gradient-particle size relations: evidence for the formation of debris slopes by hydraulic processes in the Mohave Desert [A. D. Abrahams, A. J. Parsons, and P. J. Hirsch], 347
Hirsch, P. J. *See* Abrahams, A. D.
Hubbard, W. B., author of Planetary Interiors. *Review* by J. V. Smith, 221
Hughes, M. J. *See* Paris, I.
Humlum, O. *Genesis of an imbricate push moraine, Höfdabrekkujökull, Iceland*, 185
Hydrothermal Processes at Seafloor Spreading Centers, edited by P. A. Rona and others. *Review* by E. Ito, 96
Insights on why graphic correlation (Shaw's Method) works: a discussion [C. W. Harper, Jr. and K. D. Crowley], 503
Insights on why graphic correlation (Shaw's Method) works: a reply [L. E. Edwards], 507
Ito, E. *See* Rona, P. A.
Iverson, R. M. *A constitutive equation for mass-movement behavior*, 143
Jansen, S. L. *See* Veizer, J.
Jenkins, D. M., R. C. Newton, and J. R. Goldsmith. *Relative stability of Fe-free zoisite and clinozoisite*, 663
Johnson, N. M., J. Stix, L. Tauxe, P. F. Cerveny, and R. A. K. Tahirkheli. *Paleomagnetic chronology, fluvial processes, and tectonic implications of the Siwalik deposits near Chinji Village, Pakistan*, 27
Johnson, N. M. *See also* MacFadden, B. J.
